OUTDOOR—Hemp Planting Report—Due 14 Days After Planting

Licensee Name: _____ Date: _____ Page ___ of ____ (use additional forms as needed to report on all lots)

- Each row in the table below is a hemp "lot". A "lot" is a single variety or cultivar that you grow in a distinct location and is not mixed with other hemp cultivars. Plants are started at about the same time and are harvested at about the same time. DACF staff are sampling individual hemp lots for THC analysis and it is therefore important that you plant your hemp in distinct "lots" and report about it in a "lot" format.
- Please enclose documentation for each variety or cultivar you grow, including a Certificate of Analysis (COA) for the parent stock, from the source(s) of your seeds/seedlings/clones. **Remember, hemp contains no more than 0.3% Total (Max) THC by dry weight.**
- You should have reported your hemp crop with your local FSA office before completing this form. DACF needs the "FSA Number" (Farm Number-Tract Number-CLU/Field Number) for each lot from Form FSA-578 in order to sample and test it.

LICENSE NUMBER	OUTDOOR Grow site Name/ID	VARIETY/CULTIVAR GROWN	GPS COORDINATES FOR THIS LOT (**decimal degrees** from center of lot)	TOTAL ACRES PLANTED FOR THIS LOT	DID YOU PLANT SEEDS, SEEDLINGS OR CLONES?	PLANTING DATE	ESTIMATED HARVEST DATE	TYPE OF HEMP (INTENDED USE)	**"FSA Number"** Farm Number-Tract Number-CLU/Field Number (from FSA-578 Form)
An example: *23_1634*	*South Field*	*Anka*	*44.182685 -69.052451*	*5*	*seed*	*6/15/21*	*10/10/21*	*grain*	*12345-9999-2*

Did you enclose COAs for all the varieties/cultivars you listed above?
