Appendix A

DEFINITIONS

Refer to the following explanations when selecting a license type from the table on page 2:

Eating Place – Mobile means a mobile vehicle designed and constructed to transport, prepare, sell, or serve food at several sites and is capable of being moved from its serving site at any time. This type of establishment is a self-contained food service operation, located in a vehicle or a movable stand on wheels.

If a mobile unit is not capable of supporting the preparation of all food items and/or proper ware washing, the unit is not self-sufficient, and the operator will be required to conduct these operations in their own licensed mobile base kitchen. In addition to this application, you will need to complete and submit the Eating and Lodging Application (HHE-602) for an inspection and approval of the mobile base kitchen.

Eating Place- Mobile Base Kitchen –means a commercial kitchen licensed by the owner of an eating place-mobile or eating place-mobile stick built (i.e., mobile units) for food preparation, storage and/or ware-washing that cannot be conducted within the mobile unit due to insufficient equipment and/or space.

Eating Place – Mobile Stick Built means food service equipment that may be assembled and disassembled for storage or transportation and may only operate at a fixed location for the duration of an approved community event (e.g., fairs, festivals, farm markets, etc.).

Eating Place – Temporary means an eating place or establishment that operates at a fixed location, for a period not exceeding 14 consecutive days, in conjunction with a single community event.
